## Step 11 - Features

Now, let me introduce a few interactive features in Gather Town:

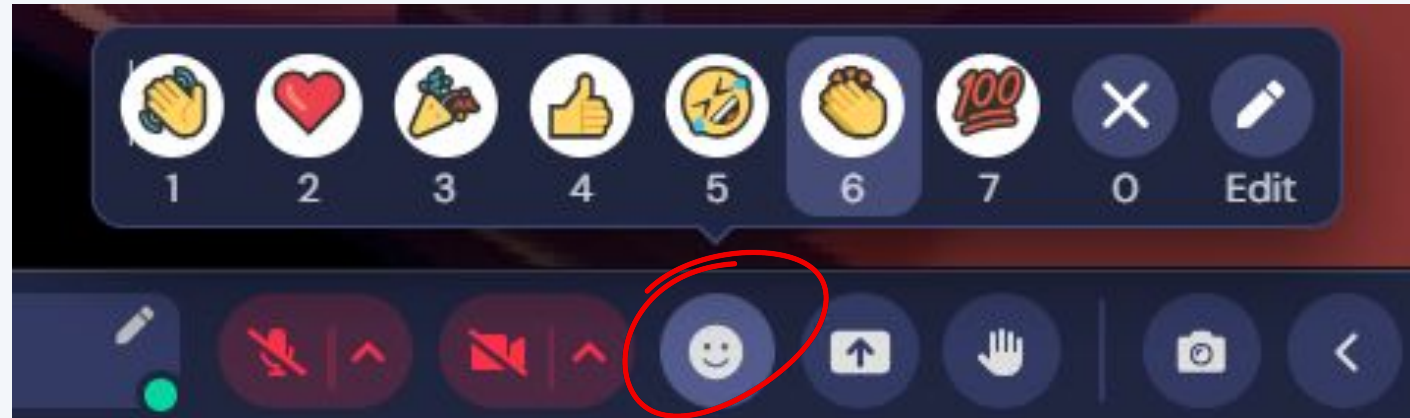

- ◆ X → Interact with objects (If an object has a yellow outline, you can interact with it.)
- ◆ G → Ghost mode! If avatars are crowded together, hold G while moving to pass through them.
- ◆ Z → Feel like dancing? Press Z to show off your moves!
- ◆ F → Want to stand out? Press F to set off fireworks! 🎆

🚫 However, please do not use these features during class! 🚫

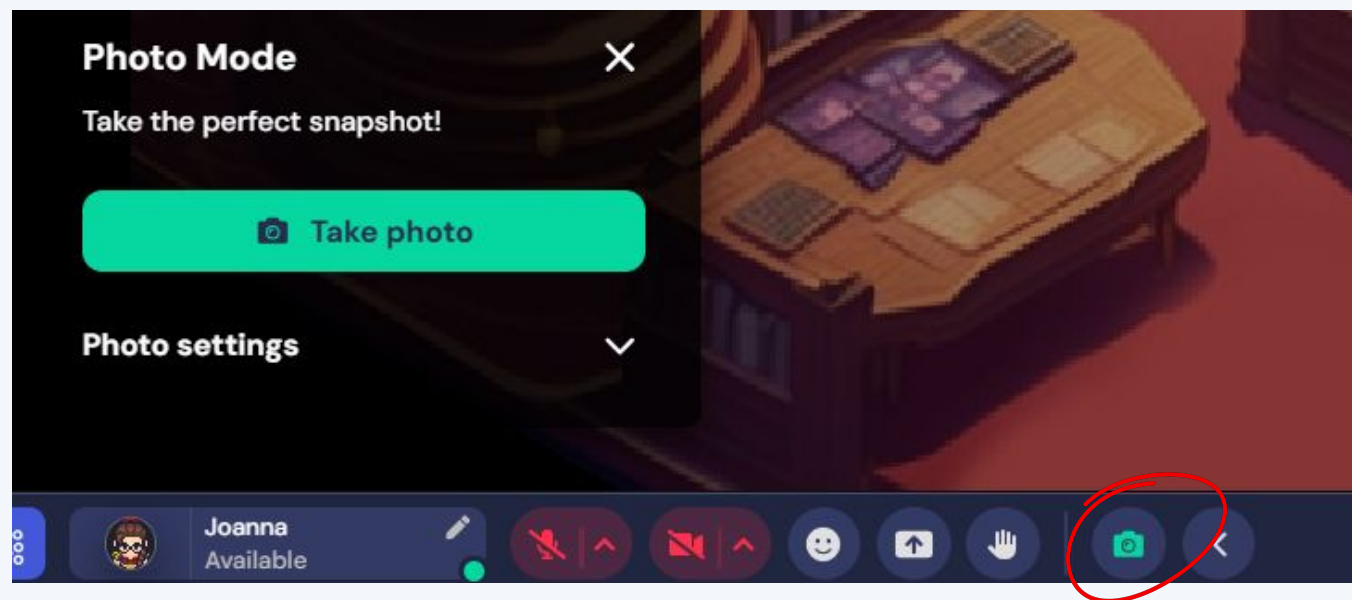

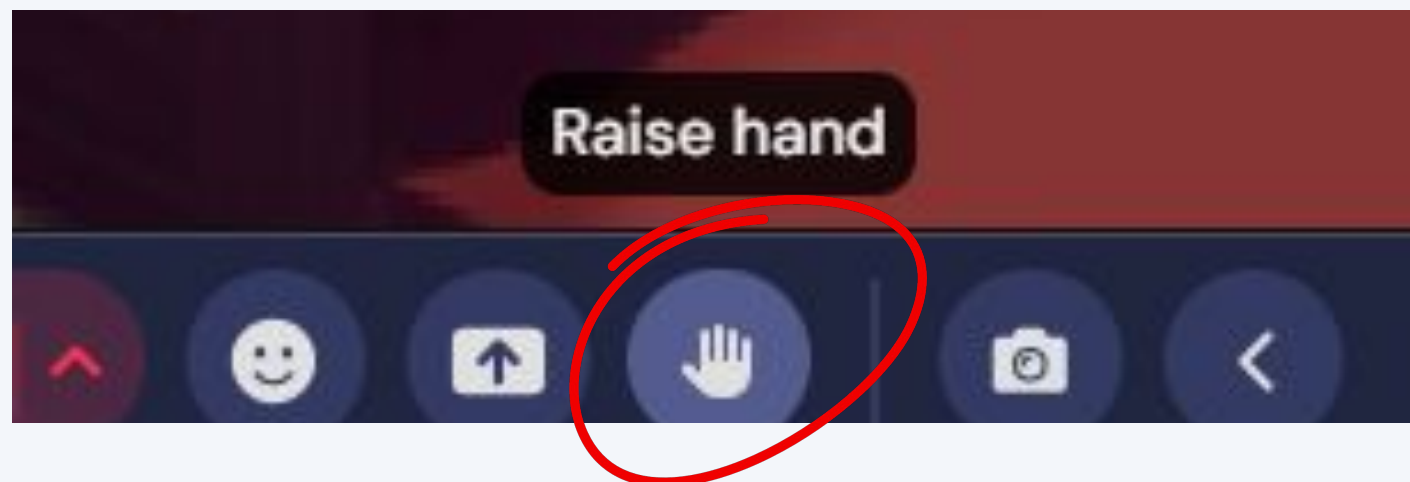

## Step 12 - GT Features

You can use emojis to express your excitement and share your feelings in class, but please use them appropriately and avoid overusing them especially during class

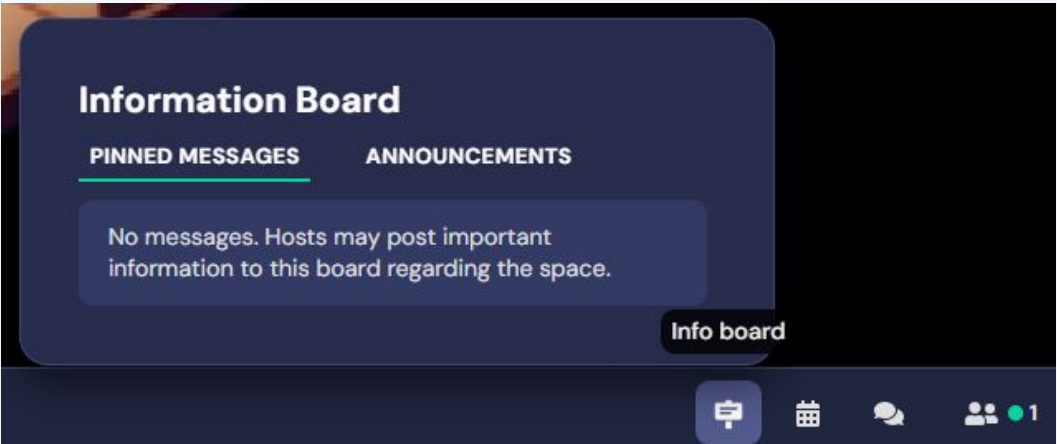

If you want to capture special moments with your teacher or classmates, you can take a photo using Photo Mode, Say cheese~!

You can also raise your hand to participate in presentations or discussions!

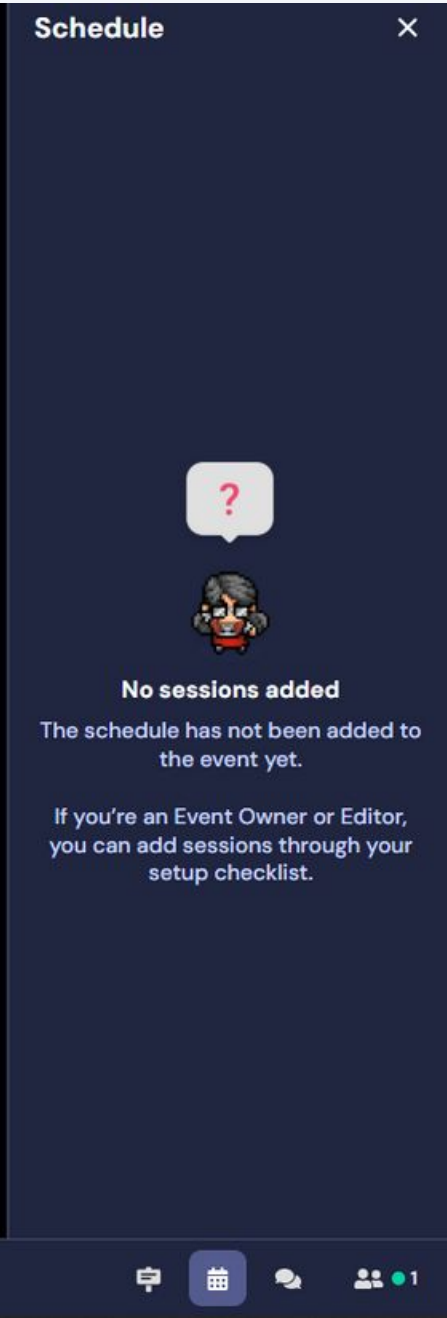

# Step 13- GT Features

On the information board, you can check announcements or important information about the class.

The chat function is also available on this site, but it should only be used during class for emergencies (e.g., if the mic is not working and you cannot use audio, you can use the chat to inform the teacher). This feature is designed to assist with the class, so please avoid being distracted by chatting with friends during discussions.

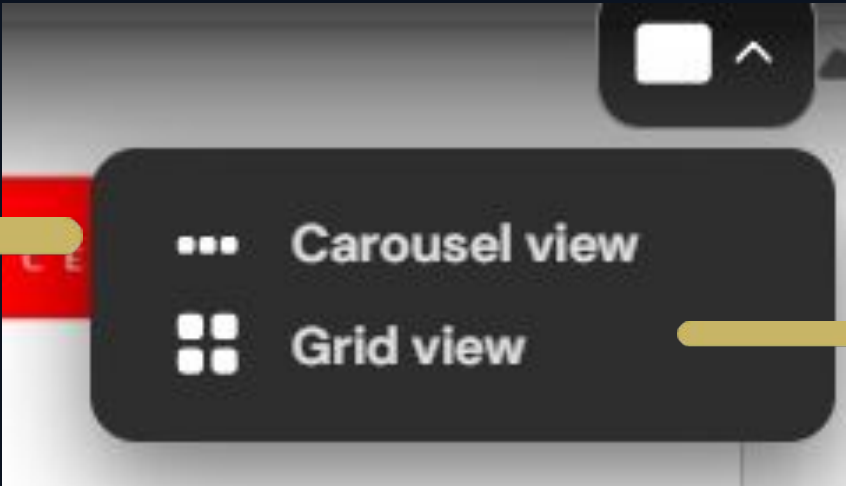

The schedule contains events and classes, but it is designated for LGC Managers, Campus Directors, and online teachers.

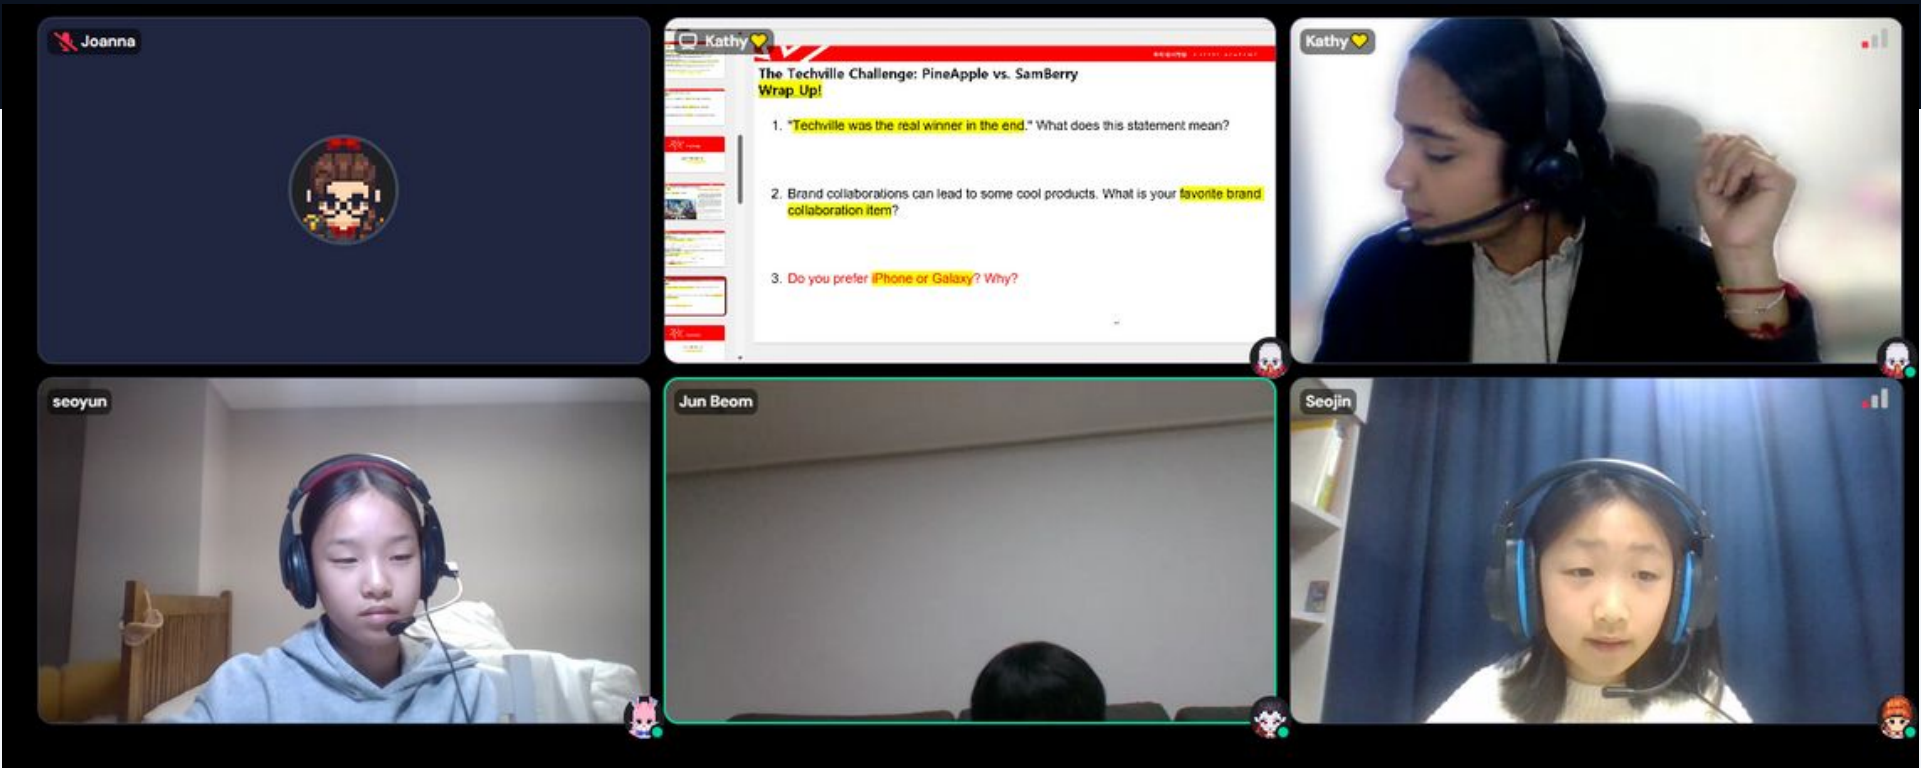

# Step 14 - Class View

You can also choose your view in class. It's advisable to use the grid view so you can see your classmates and the PPT clearly.

Note: If you're using a smaller laptop screen, you can click on the PPT to make it the largest view on your screen.
